# Model 1163 PowerLuber®

## Automatic Air Operated Grease Gun

The 1163 is the most advanced air operated grease gun on the market. The 1163 offers exceptional performance and durability. Its fully automatic operation allows the job to be lubricated with just one squeeze of the trigger.

The 1163's outstanding design provides the user with years of reliable and efficient lubrication.

### Features & Benefits

- ◆ Durable, long lasting motor with 55% fewer moving parts than the Model 1160 it replaces
- ◆ Full automatic operation—cycles continuously when trigger is pulled, self-priming
- ◆ Low operational noise
- ◆ Model 1218 flexible 18" high pressure hose\*
- ◆ 40:1 ratio
- ◆ 6000 psi capability
- ◆ New high quality, PowerLuber family look:
  - Powder paint
  - Plated steel barrel with flip-over follower
  - Fully automatic operation
- ◆ Air operating range 40 to 150 psi
  - CE certified
  - Patent pending

\* Longer hose lengths available separately (24" P/N 1224, 30" P/N 1230, 36" P/N 1236)

**When it comes to quality lubrication products, there's only one choice—Lincoln.**

12 VOLT

# Cordless Rechargeable Grease Gun

The new Lincoln PowerLuber® 12 Volt Cordless Rechargeable Grease Gun is the most advanced grease gun ever created. Its powerful 12 volt motor delivers a consistent grease flow at up to 6000 psi for faster, more effective lubrication than manual methods. Its fully rechargeable power pack gives you unrestricted mobility.

PowerLuber's balanced design makes lubing hard-to-reach fittings routine. And when you've got a lot of fittings to hit, the rechargeable 12 volt battery provides long-lasting performance. Three-way loading makes refilling a snap.

There are three PowerLuber models, with a full range of accessories, designed to meet the demands of any lube application—from the professional mechanic to the do-it-yourselfer.

Discover how easy lubrication can be with the new Lincoln PowerLuber Grease Gun. Because with PowerLuber, you really can *grease anything, anytime, anywhere.*

## PowerLuber Pack and Accessories

### Model 1242

The standard PowerLuber Model 1242 comes outfitted with a heavy-duty carrying case designed to withstand even the harshest punishment.

Comes complete with:

- 110 volt fast charger (Model 1210)
- One 12 volt NiCad rechargeable battery (Model 1201)
- 30" flex hose with spring guard (Model 1230)
- Custom carrying case designed to hold optional rechargeable battery and two optional grease cartridges (grease not included)
- Patent pending

### Model 1244

Top of the line. The 1244 has everything for the serious professional including a second rechargeable battery.

### Model 1240

The 1240 is economy packed without the custom carrying case. Includes battery charger and one rechargeable battery.

## Features & Benefits

- ◆ Powerful 12 volt motor
- ◆ Planetary gear drive
- ◆ High-capacity 12 volt NiCad battery
- ◆ Machined and hardened piston
- ◆ 2" final drive needle bearing
- ◆ Plated steel barrel with exclusive flip-over follower
- ◆ Locking follower rod
- ◆ Accessible check valve
- ◆ Bleeder valve
- ◆ Outlet opening 7/16" UNEF
- ◆ Threaded opening (1/8" NPT) for filler nipple (not included)

## Models 1242 & 1244 PowerLuber® Enhancements for 2002

- ◆ Pressure Relief Valve added to identify proper grease flow to user; blocked fittings can be identified
- ◆ Pressure Relief Valve prevents motor overload
- ◆ Redesigned Battery Clips secure battery
- ◆ to handle in even the most severe conditions
- ◆ New CE approved wiring design eliminates voltage and magnetic leakage
- ◆ CE approved assembly

Now also available in 220 volt models for Europe and Latin America (Models 1242E and 1244E)

# PowerLuber® Accessories

## Model 1201

This high-capacity 12 volt NiCad rechargeable battery easily snaps in for use with the PowerLuber 12 Volt Grease Gun. Dispenses a minimum of three grease cartridges under normal conditions. Have a second battery pack charged and ready to go for uninterrupted all day lubrication! 1300 mA-hour capacity.

## Model 1210

The PowerLuber 110 volt one-hour fast charger is designed for use with battery pack model 1201. Automatic trickle charge maintaining mode ensures your PowerLuber will be ready when you are. 6 ft. cord; UL/ULC listed.

## Model 1215 Field Charger

12 Volt to 12 Volt PowerLuber Charger (*available July 2002*)

- Plugs directly into accessories outlet on car, truck, tractor, utility vehicle, etc
- Provides mobility—allows the 12 volt PowerLuber battery to be charged while on the go
- Quick charge design allows recharge in as little as one hour
- Automatic trickle charge prevents battery damage
- Shares same dimensions as 110 volt charger so that it may be stored in PowerLuber carrying case
- Six foot cord length

# Model 905 Electronic Metering Control Valve

Grease, air, oil, water—Lincoln makes control valves and dispensing meters that handle it all to keep things flowing smoothly. From manual controls to digital preset metering systems, there's a big selection to choose from.

The 905 Electronic Metering Control Valve dispenses motor oil, ATF, gear lubricant, antifreeze and hydraulic fluid in pints, quarts, liters or gallons. The easy-to-use unit is equipped with a specially engineered automatic, non-drip nozzle containing a manual open/close feature.

This feature prevents accidental release of fluid when handling or storing the meter. The easy-to-read digital display allows for accurate bulk dispensing. The Model 905 includes an inline swivel, adjustable rigid extension, nozzle and inline filter.
